- Extreme Adventurer & Avid Outdoorsman

## Certifications & Degrees:

- Counter Narcotics/Human Trafficking Analyst (DIA)
- CI/HUMINT (NMITC)
- IT/Cyber Security
- Technical Degree Electrical Mechanical Engineering
- Specialized Diesel Power Generation
- Marine Specialist / Advanced Marine

# Problem Domain

Update the IT infrastructure of a recently acquired startup  
GreenGenius:

- IT systems are primitive and very insecure.
- No Centralized File Sharing and Identity Management
- Small Newly established Company
  - Small Budget
  - Out of date Infrastructure
  - Needs room for growth

# Solutions

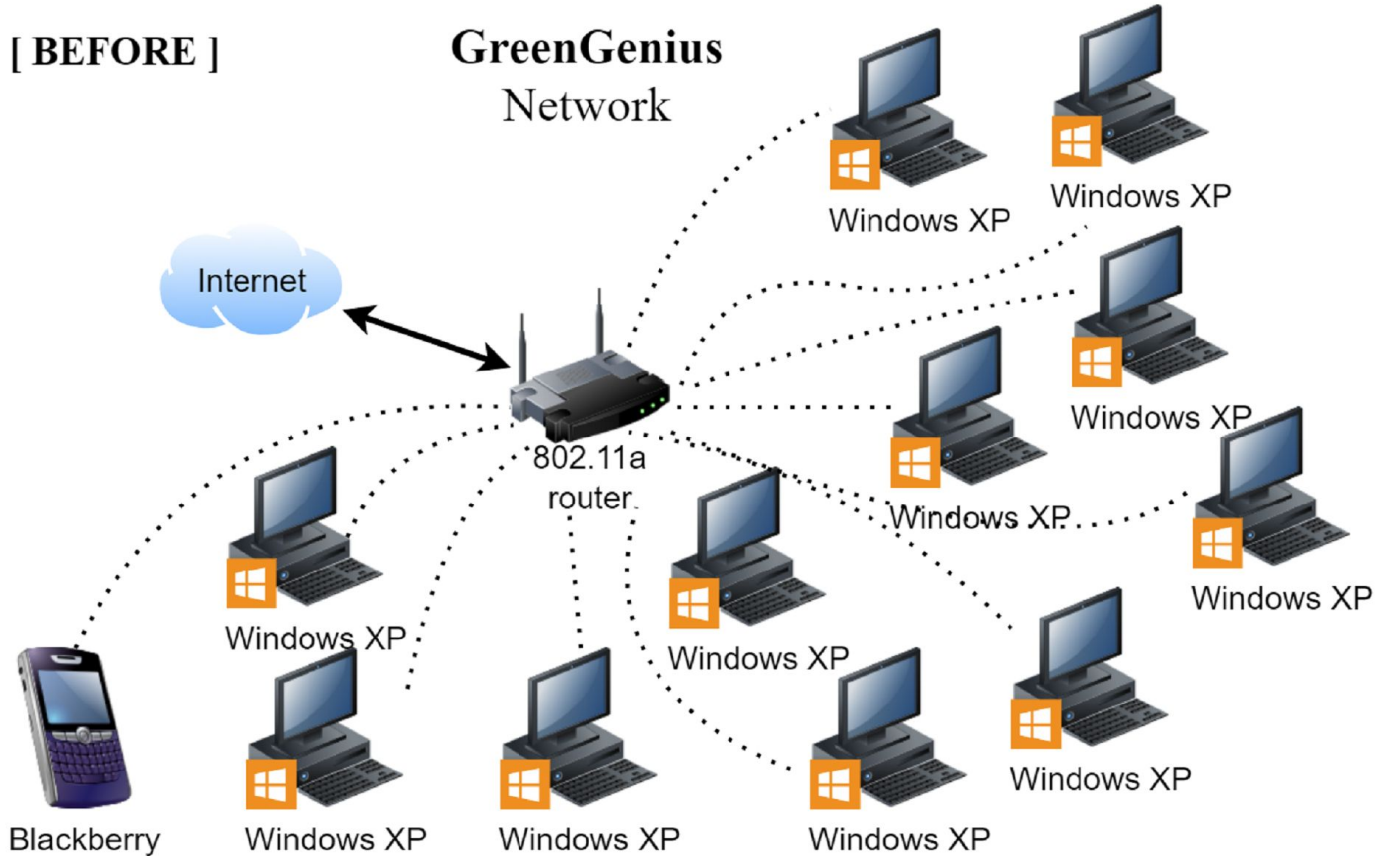

- Automated deployment for the domain server and network services (DNS)
- Secure communication channel between the two networks (VPN)
- Access control measures (captive portal)
- Centralized account management (AD, AAA)

# Topology

[ BEFORE ]

**GreenGenius**  
Network

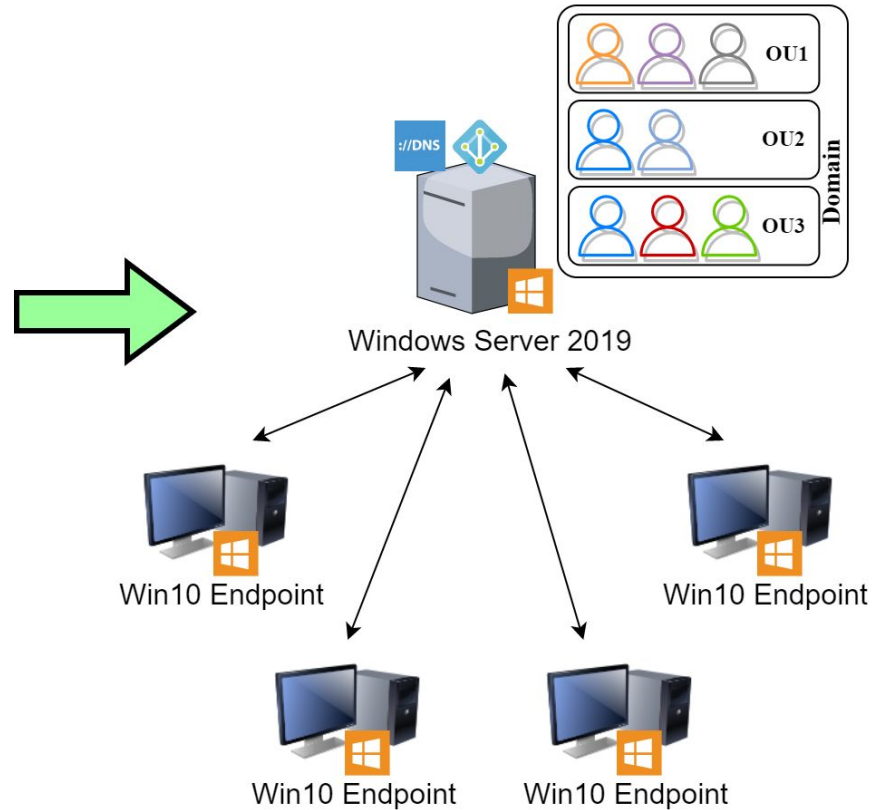

# Active Directory

Decentralized / Workgroup

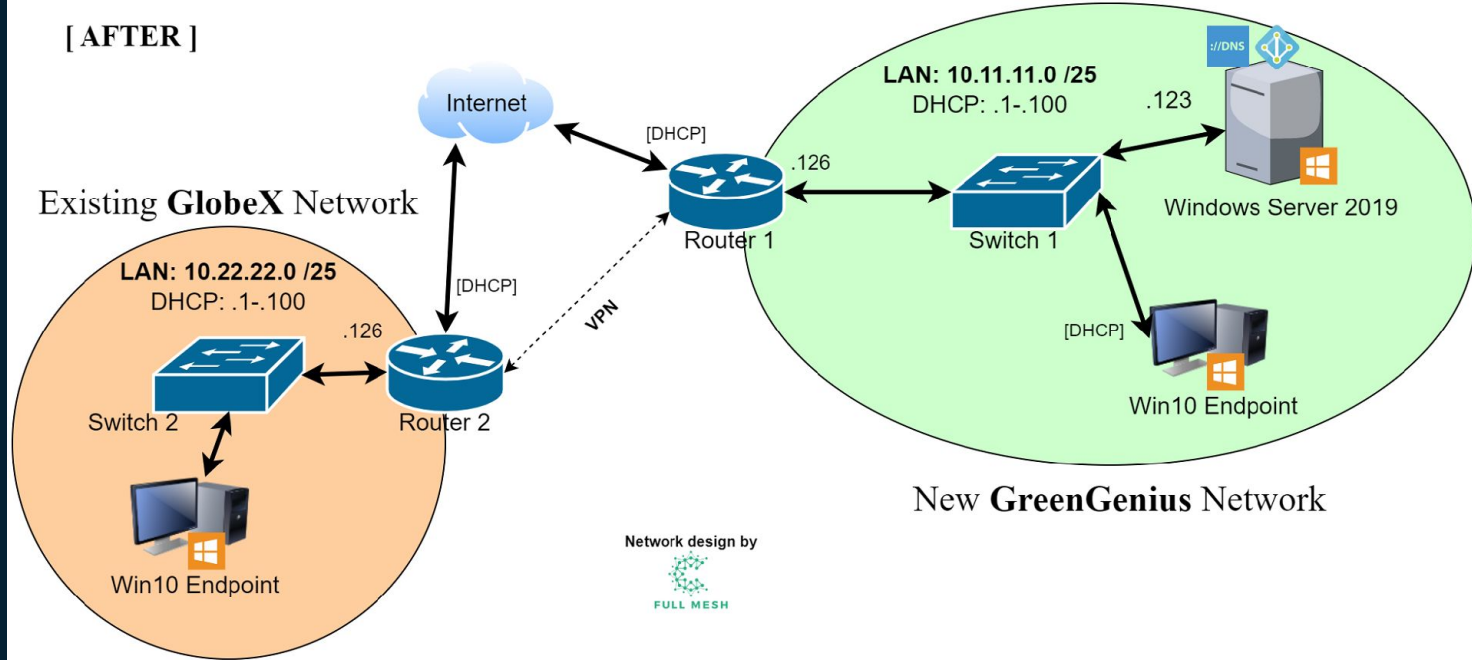

Centralized / AD

# Topology

[ AFTER ]

# Demonstration

# Resources & Thanks

- Code Fellows Staff
- All of our peers, we work better as a team.
- Ethan and Hexx
- Google

# Questions?
